About this bulletin

This bulletin presents information about complaints defined under the Police Reform Act 2002 (PRA 2002), as amended by the Police and Crime Act 2017. The legislation came into effect on 1 February 2020 (4 January 2021 for the British Transport Police).

It sets out performance against a number of measures and compares force results to their most similar force (MSF) group (where applicable)

Please note: Data for one force was not available in time to be published in this bulletin. This should be considered when using national figures for comparison.

Please note: Unless stated otherwise, tables within the bulletin consist of 'year-to-date' figures covering all matters being started or completed between the two dates.

Q1: 1 April to 30 June, Q2: 1 April to 30 September, Q3: 1 April to 31 December, Q4: 1 April to 31 March

Section A1.1: Complaint cases and allegations logged

A complaint case is formed of one or more allegations. Numbers per 1,000 employees are used to demonstrate how the number of complaints/allegations against a force compare to their most similar force group and national figures. The force should contact the complainant and log the complaint as soon as possible after the complaint has been raised. Average to log/contact is from the customer perspective.

Note: Number of employees is a fixed number through the period, therefore complaints and allegations per 1,000 employees is higher for the full period (as in the table) than when broken down in to quarters (as per the charts)

Year to date	Complaints logged	Per 1,000 employees	Allegations Logged	Per 1,000 employees	Average working days to contact complainants	Average working days to log complaints

Section A1.2: Reason for complaints to be logged under Schedule 3

Allegations should have an allegation category applied to them which will identify the root of what the allegation is about.

Forces can handle a complaint informally (known as Outside of Schedule 3), this should be used to deal with lower level complaints.

If a complaint is handled formally under Schedule 3, the force should record the reason why.

For more information on Schedule 3 of the Police Reform Act see here:

A complaint case will contain one or more allegations and one category (and sub-category, where available) is selected for each allegation logged. Total % is of the total number of allegations logged. Allegations where the subcategory is 'none' are omitted from this table.

This section presents information that shows the situational context of the dissatisfaction expressed in a complaint.

Each allegation should have a single category selected. However, multiple factors can be selected on a single allegation. Therefore, the sum of factors will not equal the total allegations logged in each category and the percentages here will add up to over 100%. Please refer to our [Guidance on capturing data about police complaints](#) for definitions of categories and factors.

This section presents information that shows what people are complaining about using a combination of allegation categories and factors against the police force.

Categories capture the root of the dissatisfaction expressed in a complaint. Factors capture the situational context of the dissatisfaction expressed in a complaint.

The combination of categories and factors provides a richer picture of what people are complaining about compared to the categories alone.

Each allegation should have a single category selected. However, multiple factors can be selected on a single allegation. Therefore, the sum of factors will not equal the total allegations logged in each category. Please refer to our [Guidance on capturing data about police complaints](#) for definitions of categories and factors.

The table below shows a breakdown of allegations logged with the focus national complaint factors.

Section A2: Allegations timeliness

This section presents the time it takes the force to finalise allegations by how they were handled. It gives a breakdown of allegations handled informally outside of Schedule 3 and those that were handled formally by either by investigation or handled other than by investigation. Timeliness is calculated from the date the allegation was received by the force to the day the complainant is informed of the allegation decision.

Independent investigation figures do not include conduct or death/serious injury investigations which are also investigated by the IOPC.

Allegations with 'invalid dates' have been removed from the data shown. Please refer to the performance framework counting rules and calculations on the [IOPC website](#) for an explanation of invalid dates.

Section A3.1: How allegations were handled and their decisions

This section presents a breakdown of how allegations were handled information and the decisions being given. An allegation decision is logged for each allegation finalised. The allegation decision reflects how the complaint case has been handled, with different decisions available for the different means of handling. Both the allegation decisions and the subsequent actions available will depend on two things: firstly, whether the complaint case has been handled outside or under Schedule 3; and secondly, the means of handling where it has been dealt with under Schedule 3. Please refer to our [Guidance on capturing data about police complaints](#) for details of allegation decisions.

Section B1.1: Allegation actions - on allegations handled outside of Schedule 3 (Year to date)

This section presents information about what happened as a result of the allegation (action). Actions are captured at allegation level and multiple actions can be selected, where appropriate, on single allegation. The figures shown in this section are based on allegations that resulted in the corresponding action. As more than one action can be selected for a single allegation, the sum of all percentages will not equal 100%.

The actions available once an allegation is finalised depend on how the complaint case has been handled. Please refer to our [Guidance on capturing data about police complaints](#) for details of actions available.

Please note: not all of the available actions arising from the complaint handling are shown. The actions presented in this section are those that focus on putting an issue right and preventing it from happening again by encouraging those involved to reflect on their actions and learn.

This section presents information about what happened as a result of the allegation (action). Actions are captured at allegation level and multiple actions can be selected, where appropriate, on single allegation. The figures shown in this section are based on allegations. As more than one action can be selected for a single allegation, the sum of all percentages will not equal 100%.

The actions available once an allegation is finalised depend on how the complaint case has been handled. Section D1: Complaint cases finalised under Schedule 3 - timeliness

This section shows the time it takes the force to finalise complaint cases from the customer's perspective. It gives a breakdown of the time taken to finalise complaint cases handled formally under Schedule 3. Timeliness is calculated from the date the complaint was made. On cases under Schedule 3, the below figures include the time a case may spend suspended due to criminal matters.

Complaint cases with 'invalid dates' have been removed from the data shown. Please refer to the [IOPC website](#) performance framework counting rules and calculations on the for an explanation of invalid dates. For more information on the proportion of complaints handled under each method (along with outside if Schedule 3) please see page 14

Section E: Referrals

The figures presented in this section include all referrals that the force makes to the IOPC (received), not just those arising from complaints.

When the IOPC receives a referral from the force, it reviews the information they have provided. The IOPC decides whether the matter requires an investigation, and the type of investigation.

Referrals may have been completed in a different period to when they were received.

Where a referral is made by the force on a mandatory basis but does not meet the mandatory referral criteria, the matter may not fall within the IOPC’s remit to assess and will be determined invalid.

The sum of decisions may not match the number of referrals completed. This is because some matters referred may have come to the attention of the appropriate authority before 1 February 2020 and have investigation type decisions of either managed or supervised.

Notes

Data sources

- Data in this bulletin is taken from XML data submissions made by forces to the IOPC every quarter except for IOPC performance data which is taken from the IOPC case management system.
- Police force employee numbers are taken from the latest [police workforce England and Wales statistics](#) published by the Home Office.
- The most similar force (MSF) groups used for the calculation of the MSF averages in this bulletin are those determined by HMICFRS. Please note that the British Transport Police and City of London Police do not have an MSF group. A list of the MSF groups is available on the [IOPC website](#).
- Figures for City of London include complaint cases logged in relation to 'Action Fraud'. Action Fraud is the UK's national reporting centre for fraud and cybercrime. The service is run by the City of London Police, which is the national policing lead for economic crime.

Performance Framework counting rules and calculation

- The counting rules and calculations used to produce the data shown in this bulletin can be found on the [IOPC website](#).
- Average times are presented in working days and do not include weekends or bank holidays.
- Some percentages may add up to more or less than 100% due to rounding.
- Complaint cases and allegations with invalid start/end dates have been removed from average time calculations. Therefore, the numbers of complaint cases and allegations used in the average time calculations may be lower than the total number of complaint cases and allegations logged or finalised.

Data constraints

- The data is sourced from live case management systems and provides a snapshot of information as it was at that time. Therefore, there may be variances between the information in this bulletin and information reported at a later date.
